DHARMIK BHATTI

REACT JS DEVELOPER

Surat, Gujarat | +919712763285 | escorted.by.dharmik@gmail.com | github.com/dharmikbhatti

SUMMARY

A results-driven React Developer with a thorough internship, excellent in developing scalable front end architecture, leveraging React for responsive UI, and experience in JavaScript, HTML5, CSS3, and modern front-end tools. Skilled in state management, RESTful API consumption, and performance optimization in dynamic web apps.

TECHNICAL SKILLS

HTML5	CSS5	JavaScript (ES6)
React JS	Tailwind CSS	Git/GitHub

PROFESSIONAL EXPERIENCE

Internship, Durvasa Infotech   June 2024 - Dec 2024

- Helped in creating responsive layouts with CSS frameworks such as Tailwind CSS and similar.
- Created reusable and front-end libraries for code reusability and maintainability.
- Implemented Context API of react, and React Hooks (like useState, useEffect and etc) to manage complex applications state in a very efficient way.
- Implemented RESTful APIs for the dynamic retrieval and display of data, ensuring synchronization between front-end and back-end systems.

PROJECTS

SEO Service   whitespark-seo.vercel.app

Technologies Used: HTML, CSS, Tailwind CSS, JavaScript

- Designed & Developed a Responsive, Simple User-Friendly Website for an SEO services company.
- Implemented JavaScript for added interactivity like dynamic content display and form validation.
- Responsive Design : cross-browser compatible, mobile-first

Task Management System - In Progress   mytaskvault.vercel.app

Technologies Used: React JS, Tailwind CSS and context API

- Task Creation & Management and Real-Time Update
- Introduction to a workflow that will save time completion time confident with completion rate.
- Give out badges to users at milestones (the most common being completion of a certain number of tasks, etc.) and many more features.

EDUCATION

Bachelor of Computer Application (BCA)   June 2021 – May 2024
Bhagwan Mahavir University
